Take care of the Liberty Bonds in the fourth drive, and the soldiers will take care of themselves.

Don't judge a man's loyalty by his inability to sing the national anthem. Many a real patriot is tongue-deaf.

Begin now to think about how much you are going to invest in the Fourth Liberty Loan--its coming before the month is passed. And when it comes be ready.

A DEMOCRAT RECORD.

"Every six minutes," observes the Washington Post, "a merchant vessel arrives and another departs from American ports. From North Atlantic seaports, there is a departure every eleven minutes; and one from Europe every forty minutes. This rate of operation does not include vessels in the service of the army and navy. The merchant fleet of 1,500 ships under the control of the shipping board are run as railroads on a time schedule."

The above—a record to be proud of—speaks volumes for the constructive ability and the vision of President Wilson and his party supporters. It was made possible by a Democratic Congress, not with the help but in despite of the opposition of Republican members of the Senate and House. During the session of 1914-15 President Wilson urged Congress to provide the means by which the Government could go into the ship-building business. He foresaw then the necessity for ships. The House passed the bill, but the Senate Republicans killed it by a filibuster in the closing days of the 1915 session. The next session the bill was reintroduced and ultimately was forced to passage by Democrats over the vigorous protest of Re-

publicans. The vote in the House was 209 to 161. Of the 161 negative votes, 160 were cast by Republicans. It passed the Senate, 38 to 21. Of the 21 votes in opposition, 20 were cast by Republicans. The leaders of the minority party in both the House and Senate were among those who fought the ship-building bill. And now, they seek to convince the country that they should be given control of the next Congress to "help the President win the war." Judging by past performance of this most important of all war-winning measures, the "help" a Republican controlled Congress would give the President would be destructive rather than constructive.

Young Woman's Christian Association.

Through its Ministry of War, France has requested the American Y. W. C. A. to provide foyers or social rooms for girls who are working in the great industrial plants which are producing government supplies.

The Y. W. C. A. came to France on the invitation of French women of advanced thought who recognized the value of the work which the association was doing in America. It has achieved such distinct success in the less than a year it has been there that the French government has approved its work, the mayors and prefects throughout France are cooperating with it, and the leading manufacturers are now eagerly demanding its extension.

A Y. W. C. A. foyer or club has been opened for the girls who are working in the Ministry of War in Paris, at the request of the Ministry and after careful inspection of other clubs in French industrial centers. Another foyer for Paris business girls has been opened in the heart of the commercial district. Similar Y. W. C. A. social centers are in operation for munitions workers in Lyons, St. Etienne, Bourges and Tours.

The work among the munitions women and girls of France is similar to that being done in the great munitions plants in America, such as Old Hickory powder plant at Nashville, which is to have the largest war service club for women in the world.

RINGLING BROTHERS

ANNOUNCE DATE

Gigantic Spectacle and Thousand and Arenic Sensations To Appear in Nashville.

Word comes that Ringling Brothers' mammoth circus is to exhibit afternoon and night at Nashville, Saturday, Sept. 21.

Always the leaders in introducing the newest and greatest features the famous showmen this season announce the most remarkable program of their career. There is a brand new spectacle of gigantic proportions entitled "In Days of Old." Produced on the biggest stage ever built. It tells the story of the golden age of Ivanhoe, Robin Hood and King Arthur. An entire trainload of scenery is carried. The cast numbers 1,250 actors and there is an entrancing ballet of 300 dancing girls. A thousand arenic sensations follow the spectacle on the main tent program. There are great troupes of seals, dogs and monkeys that walk on tight ropes and ride horseback; herds of elephants in all new tricks; international athletes in feats of amazing strength: slides for life from tent-top to the ground by men suspended by the hair, and one—the great Hiliary—who "jumps the gap" with skates attached to his head. The world's greatest stars, such as May Wirth, who leaps from the ground to galloping steed with baskets tied to her feet, are presented in great number. There are twice as many clowns as before, a menagerie of 1,000 splendid animals and, to introduce the holiday, an all new street parade three miles long.

Quarles & Sadler Dry Goods Co.

Your Uncle Sam Must Have Walnut.

American Walnut has proven under a four-year test in this war to be the best used for the manufacture of Gun Stocks and Aeroplane Propellers.

Our government needs all this wood it can secure during the continuance of war. All owners of tree in Jackson county are earnestly petitioned to sell them to the firms who hold government contracts for gun stocks and propeller wood. Fight with your trees. Don't let them remain idle slackers.

The contractors have not as yet been able to secure enough raw material to supply our boys at the front. Owing to the large number of men our government is putting at the front, there is an increasing demand for Black Walnut.

Half a dozen trees will provide lumber to build a propeller blade and put a gun stock into the hand of each man in a platoon. The last of one machine in the air, or one platoon in the fight might turn the tide in a battle. Picture your son or the son of your neighbor holding on and fighting against desperate odds until the company or regiment your trees have armed can come to his relief. Now make this relief possible. Turn your trees loose. Wake up and get into the fight, and in this way you will be fighting for and with him as truly as if you stood beside him in the battle. You have no right to do anything else.

We have a government contract for both propeller material and gun stocks, and are urgently needing Walnut at the present to supply the boys at the front with rifles. The following prices will be paid for logs rafted on Cumberland river.

12 inch to 14 inch logs,	\$25 per M. Rafted
15 " to 17 " logs,	\$45 " " "
18 " to 19 " "	\$55 " " "
20 " to 23 " "	\$70 " " "
24 " and up	\$80 " " "

For further information call KYLE BROS., Celina, Tenn., governments agents in Jackson county, or John B. Ramsom & Co., Nashville, Tenn., government contractors.
